Experience

Principal Interaction Designer

Dell Technologies

Jan 2019 - Present

Closely work with various teams, including the iDRAC design and development groups, to help build a user-centric experience. Collaborate with both the PM and Engineering teams to bring design perspective into our discussions.

Adjunct Professor of Design

The University of Texas at Austin

Aug 2023 - Present

Work with the next generation of user experience researchers and designers, helping them find their path. Stay updated on current hardware and software design tools and technologies, always aiming to learn and grow.

UX Researcher

Human Interfaces

Jan 2018 - Jan 2019

Conducted user studies to gather insights and collaborated with design teams to translate findings into actionable recommendations. Prepared research assets, surveys and usability tests, to ensure effective data collection.

Middle School English Teacher

Brownfield ISD & Austin ISD

July 2014 - Jan 2016

Created a space where every student's learning style was considered and respected. Led mentoring sessions and provided after-school tutoring. Created original content based on the insights gather from students progress.
